Christian Nentwich, Licia Capra, Wolfgang Emmerich, Anthony Finkelstein

May 2002 **ACM Transactions on Internet Technology (TOIT)**, Volume 2 Issue 2

Full text available: pdf(463.26 KB)

Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

xlinkit is a lightweight application service that provides rule-based link generation and checks the consistency of distributed Web content. It leverages standard Internet technologies, notably XML, XPath, and XLink. xlinkit can be used as part of a consistency management scheme or in applications that require smart link generation, including portal construction and management of large document repositories. In this article we show how consistency constraints can be expressed and checked. We des ...

**Keywords:** Consistency management, XML, automatic link generation, constraint checking**2** [Towards second and third generation web-based multimedia](#)

Jacco van Ossenbruggen, Joost Geurts, Frank Cornelissen, Lynda Hardman, Lloyd Rutledge

April 2001 **Proceedings of the tenth international conference on World Wide Web**

Full text available: pdf(563.48 KB)

Additional Information: [full citation](#), [references](#), [citations](#), [index terms](#)**Keywords:** SMIL, XML, XSLT, multimedia, transformations**3** [Reviewed articles: SIGAda 2001 workshop, "creating a symbiotic relationship between XML and Ada"](#)

Robert C. Leif

September 2002 **ACM SIGAda Ada Letters**, Volume XXII Issue 3

Full text available: pdf(1.39 MB)

Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

The purpose of the workshop was to organize the Ada community to take advantage of the opportunity to create Ada applications that are operating systems independent because they are based on a web technology, XML, Extensible Markup Language. The commercial use of the Internet is the driving force behind XML. Four elements of XML, which together are sufficient to build a web application, and all employ the same syntax were described. These are XML; its schema; the Extensible Stylesheet Language, ...
